

Information sheet

# For Utilities

## Overview

TUMI is an international coalition assisting 20 global cities to create world-leading electric bus fleets in the next five years:

- The Transformative Urban Mobility Initiative (TUMI) is launching an international platform to accelerate adoption of electric buses in the Global South
- The TUMI E-Bus Mission will inspire and support 500+ cities to cumulatively electrify at least 100,000 transit buses

## The Opportunity

- Develop a cleaner, more resilient, and more profitable grid
- Collaborate with city agencies on deployment of charging infrastructure
- Prepare to navigate the grid impacts and other inevitable challenges related to electric mobility
- Receive expert technical guidance and support on:
  - Charging infrastructure planning
  - Grid impacts
  - Vehicle to grid integration
- Network with local leaders and stakeholders on electric mobility, including transit agencies, regional government, NGOs and other leaders of industry
- Position and market your utility as a global pioneer in the electric mobility field

## The Plan

- Advise the coalition on financial and policy factors to aid mass e-bus adoption
- Evaluate efficacy of financing models
- Support focal point cities in planning for e-bus adoption
- Participate in regional & global summits

## About us

Funded by the German Federal Ministry for Economic Cooperation and Development (BMZ), a core group of organizations such as C40 Cities, Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ), the International Council on Clean Transportation (ICCT), the Institute for Transportation and Development Policy (ITDP), ICLEI – Local Governments for Sustainability, the International Association of Public Transport (UITP) and the World Resources Institute (WRI) will work together to accelerate the transition to electric buses in the Global South.
